

# Charlies Columbia Carstar Reception Area & More

**Architect:** Quadrant Design  
**Contractor:** Middendorf & Reuss Const.  
**Location:** Columbia, Illinois

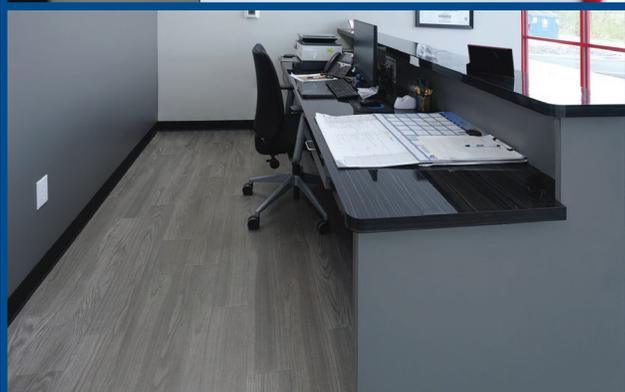

Cooperworks partnered with Quadrant Design and Middendorf & Reuss Construction to design and build Carstar's Columbia, Illinois location. With guidance from our team, Carstar chose a modern blend of WilsonArt Fossil Shale High-Pressure Laminate (HPL) and Gloss Madagascar HPL, crafting a contemporary reception area that immediately signals to customers that this is no ordinary auto body shop. To complete the inviting look, WilsonArt Holyberry HPL was also used on the stairwell.

**Plastic Laminate Casework:** WilsonArt Fossil Shale HPL

**Countertops:** WilsonArt Gloss Madagascar HPL

**Stairwell:** WilsonArt Holyberry HPL

**Spaces:** Reception area, Shop area low wall cap
