

# Harres Kitchen

**Designer:** Homeowner  
**Location:** St. Louis, Missouri

The Harres' Kitchen renovation features a clean, modern design with a focus on style and function. White Rain and Siberian Thermally Fused Laminate (TFL) cabinetry pair with Wilsonart's Monte Amiata countertops for a sleek, cohesive look. European-style cabinetry, contemporary crown molding, and brushed champagne gold pulls add refined touches. Smart features like a Rev-A-Shelf spice rack by the stove and a dual-bin trash pullout in the island enhance everyday use. A custom refrigerator enclosure with an integrated broom closet adds a unique, practical element. Designed by the homeowner with minimal guidance from our design team, this space is a true reflection of personal vision delivered to perfection.

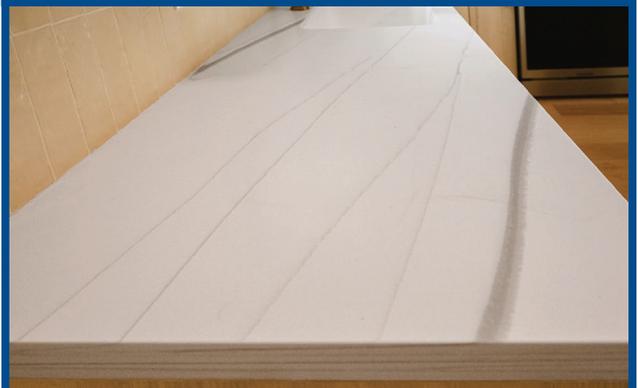

**Cabinetry:** White Rain and Siberian TFL

**Countertops:** Wilsonart Solid Surface Monte Amiata with an eased edge profile

**Spaces:** Kitchen

*Our passion. Your vision. Delivered to perfection.*
