

Juvenile Det. Center Commercial Kitchen

Contractor: Boyer Building & Design

Location: Hillsboro, Missouri

Cooperworks Industries and MAC Medical collaborated to design and fabricate a commercial kitchen for a local detention facility. MAC Medical provided the durable stainless steel countertops, while Cooperworks crafted the commercial-grade, all-plywood, European-style casework using Wilsonart High-Pressure Laminate (HPL) and five-knuckle hinges. This combination ensured a kitchen built to last, providing the staff with a reliable and enduring workspace for years to come.

Plastic Laminate Casework: Wilsonart Jubilee Oak HPL

Countertops: Stainless Steel

Spaces: Commercial Kitchen

Our passion. Your vision. Delivered to perfection.
