

Pine Lawn Dental

Treatment Rooms & More

Architect: Killian Smith
Contractor: Kevlind Contracting
Location: St. Louis, MO

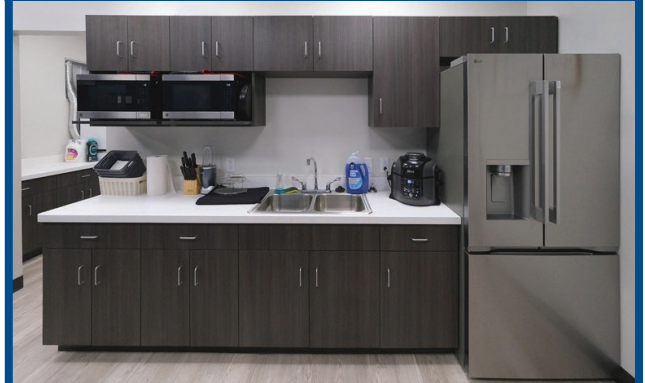

Another successful joint effort with Kevlind Contracting. This project featured a front reception area, offices, laboratory, sterilization room (including 2-tier pull-down shelves for easy access), breakroom, and 18 patient treatment rooms. Each treatment room was outfitted with our standard three-bay recessed dental operatory package, which includes a washing station, digital media hub, and a storage module with a flip-down writing surface. The result is a cohesive, highly functional environment designed to support seamless workflows and enhance patient comfort.

Plastic Laminate Casework: Wilsonart Skyline Walnut High Pressure Laminate (HPL)

Countertops: Wilsonart Frosty White (HPL), Wilsonart Milk Glass Spectra Solid Surface (SS)

Spaces: Reception Area, Offices, Laboratory, Sterilization Room, Breakroom, and Patient Treatment Rooms

Our passion. Your vision. Delivered to perfection.
